Spl letter of Appreciation & Gratitude

Respected Sir,

Firstly, we would like to convey our deep appreciation & immense gratitude for choosing us as a routine beneficiary. As you may be aware, that we have been working in Kolkata for about 49 years serving people with intellectual disabilities mainly coming from poor & deprived BPL section of the society who are mostly left out in the fringes of the society to fend for themselves.

We are indebted to you for your continuous love, support & generous contribution in kind (groceries, furniture, kitchen items, office equipments, etc) throughout the year towards the welfare of our intellectually disabled members. We are touched by your exemplary benevolence & humanitarian endeavours especially at the times of covid pandemic crisis. Your support will serve as a beacon of hope and inspiration for us to tirelessly strive towards our goal to maximize our efforts to alleviating the pain & sufferings of the poor, disabled & the deprived.

SPSWS group had also been instrumental in organising & generating other fund support/donations for us in cash to meet our other Recurring Expenses (like food/ nutrition & medicines, etc) as part of special initiative drive. We remain grateful.

Thanks for being there as a real friend at the time of need. Hope this wonderful bond between us will continue to flourish with time & we sincerely expect to get your unceasing hand of compassionate support in future also. We believe that people like you are the tower of strength of our organization. We treasure & cherish your friendship. It is the most precious possession we ever have.

We would also like take this opportunity to extend our warm invitation to all esteemed office bearers of SPSWS to visit our community & experience our projects & activities when you find time.

Warm Regards, Love & Peace

Smritikana Mondal.
